

OTTAWA PAPER SAYS C. P. R. PLANS BUILDING NEW LINES IN WESTERN CANADA INVOLVING 1,200 MILES, \$50,000,000 COST—OPENING UP A TREMENDOUS NEW AREA TO DEVELOPMENT—AS REGARDS NORTHERN ALBERTA RAILWAY, C. P. R. AND C. N. R. MAY GO FURTHER THAN ACT CALLS

Ottawa, Sept. 23.—The Ottawa Evening Citizen's news columns today carry the following:

Announcement of extension plans of the Canadian Pacific Railway in the west has been received here from headquarters in Montreal. While some general statements have been made, heretofore, the official character has been lacking.

It is now stated that within the next five years the Canadian Pacific plans new lines in Western Canada, involving the construction of some 1,200 miles of track at an expense of fifty million dollars, opening up a tremendous new area to lands, mineral exploitation and general development. Alluding to taking over jointly by the Canadian Pacific and Canadian National of the Northern Alberta railways, the announcement indicates that the two roads will go further than the act calls upon them to do. It says:

"A great future looms up for this northern territory and the aid furnished by the new railway ownership will be ceaselessly progressive. A clause in the agreement of transfer obligates the new owners to the completion of sixty miles of railway within the next five years, but probably more will be undertaken."

## COMMENCEMENT DAY

All the letter carriers  
Are wearing brand new clothes,  
All the letter boxes  
Are draped in colored bays.  
Maidens selling postage stamps  
Are wearing frocks of tulle—  
It is gay commencement day  
At Correspondence School.  
—Judge.

## NOT NECESSARY

Landlady (to boarder): "You needn't polish your knife and fork so carefully. Mr. Snively. It isn't necessary, and, besides, you only soil the napkins with it."—Tit-Bits.

## CLASSIFIED ADVERTISING

FOR SALE—TWO HOUSES, barn, two garages all in A-1 condition. Will sell in whole or part. Can be moved if required. Also small house to rent. Apply A. T. Leather. 31-1t

FOR SALE—1925 FORD COUPE. Cheap—Apply Macleod Times. 31-3tp81

HOUSE TO RENT—APPLY TO 447, 21st Street, Macleod. 31-2t

FOR SALE—FULLY MODERN 5. Roomed cottage in good condition; garage and garden. Snap. Apply Mrs. J. S. Rothney, 26th St. Macleod. 31-1tp70c

FOR SALE—WALNUT BEDstead, spring and mattress, library table. G. R. Torrence, Granum. 31-1t

MOSLEMS ARE SLAUGHTERED BY CHINESE—REPORTS SAY 3,000 ARE MASSACRED FOR REBELLING AGAINST AUTHORITY—RETTALIATION NOW FEARED BY CHINESE

Hankow, Sept. 24.—Reports from central Kansu province today stated that Chinese had committed an appalling massacre of Moslems there, the victims numbering at least 3,000. Details were lacking, but it seems the Moslems rebelled against Chinese authority, whereupon they were slain.

According to reports, the executions were carried out under guise of a conference with Moslems. The victims were separated from their wives and then put to death. According to the reports, the Moslems "died stoically."

It is indicated that the Chinese now fear Moslem retaliation, possibly causing renewed civil war, which in 1918 caused the death of many thousands of Chinese and Moslems in Kansu.

Filled with Seasonable stories and articles, the October issue of Red and Gun and Canadian Silver Fox News, Canada's national outdoor magazine, just to hand, will prove of great interest to those devotees of hunting who are packing away their fishing tackle and getting out their guns at this time.

The many articles by well known outdoor authorities cover a wide field—moose hunting in Quebec, fishing in the maritimes and Ontario, goose hunting in the west. On prairie lands, big horn hunting in the Rockies and trapping in Northern Ontario. In addition are many practical articles dealing with the handling of arms and phases of life in the wilds. The Canadian Silver Fox News department contains interesting information of latest developments and practices in the silver fox industry.

Red and Gun and Canadian Silver Fox News is published monthly by W. J. Taylor, Limited Woodstock, Ont.

## NOTHING NEW

"Personally," said the young college girl, "I'm getting to have a go at literature. Mother. No nonsense about artistic ideas. I'm going to write for money."

"My dear," said her mother, "you've been doing that for four years."—Chicago Daily News.

## TOO SELDOM

Landlady: "Do you like your beef steak, Miss Prim?"  
Boarder: "Since you ask me, it is too rare—I would like it a little oftener."—Montreal Daily Star.

## ANOTHER YEAR

Fritz: "Dad, you are a lucky man."

Father: "How is that?"  
Fritz: "You won't have to buy me any school books this year. I have been left in the same class."—Kasper (Stockholm).

## THE REASON

Chivers: "I take a cold shower every morning."  
Williams: "Why brag about it?"  
Chivers: "That's why I take it!"—Answers.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION—TUBERCULOSIS IN CHILDREN

At the last annual meeting of the Canadian Public Health Association, Doctor R. M. Price reported the results of a research which is of public interest. This research was concerned with the important subject of the spread of bovine tuberculosis, that is, the type of tuberculosis from which cattle suffer and which also attacks children.

From the report, the following statements are quoted:—"The incidence of bovine infection in man, therefore, depends upon the amount of tuberculosis in cattle from which the milk is obtained, and the amount of raw milk consumed by children."

"In Canada, about five per cent. of cattle tested react to tuberculin." "The younger the individual, the greater is the probability of the infection through the milk consumed, and the more likely is the case to be due to the bovine type."

In a group of 148 children studied, the bovine type of tuberculosis was found in 20 of them. Of the 128 children who showed infection with the human type, most of them gave a history of living in contact with a case of pulmonary tuberculosis. In many of the bovine cases, there was a history of the use of raw milk, and, in most cases, the relationship to milk was shown.

The important and most instructive practical point is that all of the children who had the bovine type of the disease came from places where the milk supply was not pasteurized. The group studied included a number of children living in the City of Toronto, and not one of these children had the bovine infection. The milk supply of Toronto has been pasteurized for a number of years.

It is hardly necessary to draw conclusions. It is evident that, by pasteurization, we can eliminate the bovine type of tuberculosis, which is responsible for quite a percentage of tuberculosis among children who use raw milk. Disinfection, disinfection, suffering and sometimes death are the results of bovine tuberculosis in children. Pasteurized milk is safe and its use safeguards children from many diseases, including bovine tuberculosis.

Questions, concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

## A NEW METHOD

While Auntie arranged the pantry shelves, her little niece handled the spice boxes and called each spice by name. Presently she said, "Auntie, I can read." "Can you, dear?" answered Auntie. "Yes, Auntie," came the reply, "but I don't read like you do. I read by the smell."—Delinquent.

## NOT ON THE LEVEL

Elevator Operator: "What floor?"  
Passenger: "Seven and an eighth."  
Elevator Operator: "Trying to be comical?"  
Passenger: "No; that's where you stopped last time."—Judge.

The family knows just where old dad can get the most rest. It's the place where the family can have the best time.

CANADA HAS SIGNED WITH RESERVATIONS—SETS FORTH ATTITUDE IN REGARD TO OPTIMUM CLAUSE

Ottawa, Sept. 21.—Canada has signed the optional clause in the statute for the permanent court of international justice with reservations. The signature of the Dominion is subject to ratification by the parliament of Canada. Announcement of the signing of the clause was made today by the department of external affairs.

The reservations provide that the optional clause does not apply to disputes arising before its acceptance, that it does not apply to disputes on matters of domestic jurisdiction, or to disputes in regard to which agreement has been made or is made for recourse to some other pacific method of settlement.

Consequently, that it does not apply to disputes with other members of the British Commonwealth of Nations, which other methods of adjustment have been adopted. It is further provided that any such matter in dispute can be referred to the council of the league of nations for the period of one year rather than to the permanent court of international justice.

The same reservations were made by Great Britain, Australia, New Zealand, and South Africa and India. The Free State signed subject only to the condition of reciprocity. That is that the clause should apply only with respect to other nations which had signed.

## A SCOURGE

Eastern Ontario is fighting that scourge of youth, Acute Polymyositis, (Infantile Paralysis) and both Ottawa and Toronto have had a large number of cases, the majority of the patients being children. Quite a few deaths have occurred. This is the season for Infantile Paralysis. There have been a few cases in Alberta within the last month. Now that the children have returned to school, there is daily contact, especially in this so in country schools, where during the vacation period children are usually widely separated.

If a child exhibits signs of sickness, i. e. fever, running nose, loss of appetite, irritability when touched, he should be isolated for twenty-four hours. In that time whatever disease is incubating will develop. On no account should other children be allowed in contact. The symptoms may develop nothing worse than a bad cold, or it may be measles or scarlet fever, or again it might be Infantile Paralysis. If at the end of twenty-four hours, the child is still sick, a doctor is indicated. Where the whole future of the child may be concerned, it is criminal to run the smallest risk.

Pamphlets on Infantile Paralysis may be had free, from The Canadian Red Cross Society, 407 Civic Block, Edmonton.

## TOO STRENUOUS

Golfing Host (to novice): "Look here, you can't get away much at week-ends, so why not let me put you up for this club as a five-day member?"  
Novice: "You are very kind, but I really don't think I would be able to devote five days a week to it."—London Opinion.

## THE ANSWER

Tourist: "If no one bought anything, you can't get away much at week-ends, so why not let me put you up for this club as a five-day member?"  
Village Shopkeeper: "On the contrary, I give such value it might be the making of me!"—Passing Show.

D. M. ROSS OF MACLEOD SHIPS TWO CARS OF NO. 1 HARD WHEAT—THE FIRST SHIPPED FROM DISTRICT IN FIVE YEARS

The past week up to Monday has been a full week for threshers and thousands of bushels of golden grain have poured out of the machines every day. Some wonderful reports are coming in of high yields and high grades. D. M. Ross, who owns a large farm near the Belly River east of Hardacre, which is owned by Alf Collar, received Saturday morning the report of their third car of wheat shipped, which graded number 1 hard. Two of the three have graded No. 1 hard, the third No. 1 Northern. This is the first No. 1 Hard wheat that has been shipped from Macleod in five years, says Mr. Burke of the Alberta Pacific Elevator. This wheat was off a 130 acre field of breaking, and Mr. Ross states that it averaged just over 40 bushels to the acre. The balance of their crop ran over 30 bushels.

Paul Walters of the Hutterite Colony, who is farming the Murphy lands in the Evelme district in threshing wheat this week that was running over the 40 bushel mark, and he says that their crop of about 900 acres will average over 30 bushels, and it is all grading No. 1 Northern. Reports from all over the Southern part of the Macleod district are all along the same line. In a great many cases the yield is turning out a great deal better than expected.

## PROOF ENOUGH

Mrs. Shopalot: "You say this material is the very latest in fashion?"  
Clerk: "Yes, madam, and it's shrink proof."

Mrs. Shopalot: "But will it fade in the sun?"

Clerk: "No, madam—it's been in our window for two years."—Pathfinder.

## PARENTAGE

Father: "Necessity, my dear boy, is the mother of the law."

Dear Boy: "Oh, I see. But who was the father?"

Father: "Why, he was—er—er, oh, yes, he is Pat Pending."—Boston Beanpot.

## OBSCURED

"Everything is on the menu today, sir."

"Yes, there is so much of everything that I can't read it. Bring me another."—Christian Science Monitor.

## THOUGHTFUL WILLIE

Willie: "Pa, won't you buy me a drum?"

Pa: "No. I'm afraid that you would disturb me with the noise."

Willie: "No, I won't, Papa. I'll only beat it while you're asleep."—Pathfinder.

## WITH THE FOLKS

Wealthy Prospective Father-in-law: "And can you support my daughter?"

Suitor: "Yes, and in the manner to which she has been accustomed."—Christian Science Monitor.

## ENTERPRISING

"So you worked your way up from the bottom?"  
"Yes, I started as a bootblack and now I'm a barber."—Chicago Daily News.

Reputation and character aren't the same. A bad reputation is just the odor you notice when a character is rotten.

## GARDENING HINTS

## May Sow Grass Again

Grass is a cool weather plant and on this account should be sown only in the Spring and the Fall. With the hot weather over for another year, it is now safe to start the lawn or to fill in bare spots. To winter well, however, a good growth must be secured before heavy frosts come along. Where a new piece of ground is to be sown, cultivate thoroughly and make sure that all depressions are filled in. It is a comparatively simple matter to get an even surface before the grass is sown, but a very difficult job afterwards. Grass, like any other plant, requires food, and it may be necessary to top-dress the site selected with some fine garden loam. Rake the soil and sow with a good grade of seed. It is well worth while to pay a little extra in order to get the best grade of seed procurable as not only will a better catch be secured but there will also be fewer weeds to contend with later on. It is hardly worth while to put in Dutch clover at this time as it is liable to kill out during the Winter, but the ordinary grass can be sown safely, and the clover added early in next Spring. Sprinkling a few pounds of this over the lawn just as the snow is going away in March or April is a good practice. Use plenty of seed, one pound for every 200 square feet not being a bit too much. Rake lightly and then go over with a roller or pounder. A sprinkling of nitrate of soda, a scant handful for every two square yards, just when the grass begins to show through the soil will help develop a nice top for the Winter, and another application of the same fertilizer should be made when the lawn begins to green up next Spring. It is also a good plan to dress both the new and old lawns with barnyard manure or pulverized sheep manure late in the Fall, allowing this to stay on all Winter. It will supply food as well as protection, and the straw part can be raked off in the Spring. Bare spots in the lawn are treated in the same manner; these should be raked, sown liberally with seed, and rolled or pounded down. Protecting these with a little brush or poultry wire will prevent the birds from getting most of the seed.

## Spring Bulbs

No garden is complete without some tulips, hyacinths, and other Spring bulbs which are easily grown and make a most brilliant display in the early Spring. There is a fine selection from which to choose if orders are placed immediately. When one realizes that the flowers of these bulbs are practically formed inside the bulb the year before they bloom, the importance of securing large bulbs will be apparent. There is a remarkable selection from which to choose, ranging all the way from the crocuses, which come into flower almost at once, and which appear, to the tall Darwin tulips which bloom into June. Bulbs are a good investment as when once established they will increase each year, although unless they are given plenty of fertilizer and good care the flowers have a tendency to become smaller. If they are to be planted in a garden that has been occupied all Summer by other plants, a liberal application of well-rotted barnyard manure will be needed, and this should be spaded in to a depth of about twelve inches.

Planting Depths for Bulbs  
Depths of planting depend on the size and it is very important that the bulbs should not be put in too deep nor yet too shallow. The little crocuses and scillas only require two inches of cover, but some of the big Darwin tulips which have stems eighteen inches long must be planted about a foot in light soil and seven or eight inches in clay in order to develop a deep enough root system to support the tall stalk without staking. A safe rule to follow with everything but the Darwins is to cover the bulb to a depth of about twice its diameter and they should be planted about the same distance apart. It is also important to get these bulbs in early, September plantings getting more chance to develop and grow before the freeze-up than those put in later. However, if for some reason or other it is impossible to plant until October or even November in some of the warmer parts of Canada, results will be fairly satisfactory and one can plant right up to Christmas in pots which are to bloom indoors. Just before the ground freezes, it is well to apply a light mulch of straw manure. This should remain on the ground over Winter and until the first growth appears above the surface in the Spring.

## HIS PART

She: "I suppose you are on the football team?"  
He (proudly): "Well, yes; I do the aerial work."

She: "What is that?"  
He: "I blow up the footballs."—Lafayette Lyre.

## A GOLFING STORY

"Oh, Mamma! Is that one of those sandstorms like in the movies?"

"Shush-shush, Junior. That's only Daddy getting out of a trap."—Christian Science Monitor.

## THE MODERN VERSION

Teacher: "What did Juliet say when she met Romeo on the balcony?"

Flip Pappi: "Couldn't you get seats in the orchestra?"—Boston Transcript.

Russin needn't despair of recognition. Sooner or later Mr. Morgan will want it as part of a chain of some kind.

You see, a sport model has \$2.85 worth of nickel plating. That explains the \$350 extra.

THRESHING IS HALTED OVER WHOLE SOUTH—SNOW MIXES WITH RAIN BUT MELTS QUICKLY—PASS WHITE-DE-LAY WILL EASE GRAIN CONGESTION

Lethbridge, Sept. 24.—Rain which later developed into soft, wet snow melting as it fell extended over a wide area in the south Tuesday morning. The rain began falling late this morning and at 10 o'clock snow was falling. Early reports reaching the Herald indicate that the moisture covered most all sections of the Lethbridge railway division. Precipitation for September amounts to 1.92 inches.

Threshing will be held up and some interference with beet digging due to start today or Wednesday may be experienced, although the rainfall at this hour has not been at all heavy. The delay in threshing will also ease up the delivery of grain at the line elevators and will give the railway company a chance to relieve the congestion reported from some points. Large numbers of empties were moved into the division over the weekend-end, and grain should be moving freely at all points.

An inch of snow fell in the Crow's Nest Pass and the ground was white this morning.

## THE RIPENING OF GREEN TOMATOES

## (Experimental Farm Notes)

In some sections there is a considerable demand for ripe tomatoes after the season for this crop is normally over. This requirement may successfully be met by artificially ripening the fruits indoors. Fruits that are to be ripened should be well grown, free from blemishes, such as splits in the skin, bruises or frost injury. It has been found, however, that the very green fruits will not make a desirable finished product. Therefore, the tomatoes should be as near to maturing as possible. If such fruits can be saved and stored in a moderately cool room, at about 60 to 65 degrees, they will be found to ripen nicely over a considerable period.

There are several methods of handling the fruits, among which probably the following are the best. The fruits should be wiped free of all sand and graded into near ripe and quite green and wrap them in tissue paper, after which they should be placed in a single layer on a shelf or in baskets. Some prefer to place the fruits on the shelves or in baskets without wrapping, either method is quite satisfactory, although the fruits wrapped with paper will be found to wither less than those put to ripen without wrappers.

There is the ethylene gas method of ripening. This method of ripening requires special equipment such as a gas proof room into which the fruits are packed on trays or in baskets. The gas can be used at varying concentrations, varying from one cubic foot of ethylene gas to 500 cubic feet of air, to one cubic foot of gas to 5000 cubic feet of air. The temperature of the ripening chamber should be maintained around 65 to 70 degrees. In six days ripe tomatoes can be obtained.

## CO-OPERATION

Visitor: "And so you help your mother with the housework, do you?"

Little Helen: "Yes, ma'am. She says I help her by keeping out of her way."—Answers.

## FATHER FILLS IN

Child: "I want a donkey ride! I want a donkey ride!"  
Mother: "Oh, do take her on your shoulder, Gerald, and let us have a little peace."

## STYLE OR COMFORT

Prospective Tenant: "I would like to see one of the bedrooms?"  
Owner: "Modern or comfortable?"  
—Buen Humor (Madrid).

Every good cause has sane supporters who are in some measure discredited by excited extremists who try to help.

A critic complains that a Zeppelin is helpless when struck by lightning. Doubtless he feels safer in the ground where he can fight back.

## NOTICE OF MORTGAGE SALE

South West Quarter of Section 34, in Township 9, and Range 27, West of the 4th Meridian, Alberta, containing 160 acres more or less, excepting 3.49 acres, Canal R.W. Irr. sds, reserving unto His Majesty all mines and minerals.

By public auction in front of the Court House, Town of Macleod, Alberta, at 2 o'clock in the afternoon on Saturday, the fifth day of October, A. D. 1929, G. R. Davis Auctioneer. About 140 acres said to be arable land. About 16 acres waste land. Soil said to be brown loam with clay sub-soil. Land said to be rolling.

Improvements on said land said to be as follows: 140 acres broken, gone back to sod. Water obtained from two wells. 1 1/2 mile two strand barbed wire fence. Frame dwelling 28x30. Frame and tin barn and shed 18x108.

Nearest Railway Station, elevator, and Post Office, Macleod, 12 miles. Nearest School 1 mile. Terms of sale 10% cash, balance within 60 days.

Further particulars may be obtained from Thompson & Jackson, Barristers, etc., Pincher Creek, Alberta, Solicitors for the Plaintiff.

Dated at the Town of Macleod, Alberta, this 10th day of September, A. D. 1929.

Approved: (Sgd.) A. M. MACDONALD L. J. E. C.

29-31

EIGHTEEN MILLION BUSHELS OF GRAIN MARKED UP TO SATURDAY LAST

According to The Lethbridge Herald all records for September grain marketings on the C. P. R. Lethbridge division have gone by the boards, and there are still seven days of the month to go.

Over 18,000,000 bushels of grain, mostly wheat, have been marketed on the division in the new crop year since August 1.

In view of this, the Herald wheat crop estimate for the division, made on August 2 last, is evidently many million bushels too low. At that time the Herald estimated an average wheat crop of 18 bushels per acre. It now promises to be much nearer 25 bushels.

## Half Wheat in Alberta Here

It is now practically certain that this year's wheat crop on the Lethbridge division will reach 35,000,000 or better. In view of the fact that the total crop for the province of Alberta has been variously estimated at 70,000,000 to 77,000,000 bushels, it will be seen that that part of Southern Alberta represented by the Lethbridge division of the C. P. R. will ship practically half the wheat produced in Alberta this year.

## SOMETHING MORE FORMIDABLE

"That speech," said the secretary, "will enable anybody to know exactly what you had in mind."

"Do you think so?" exclaimed the Senator. "In that case we'd better get to work immediately and rewrite it."—Christian Science Monitor.

## THE ALIBI

"You were going well on your endurance flight. What made you come down?"

"Well, I was up 30 days, and I had to make a payment on the plane."—Detroit News.

## NO HOT DOGS!

I love the narrow, winding road  
That leads through farming lands;  
I love it for the sparkling streams  
That ripple o'er the sands.  
But most of all I love it for  
Its lack of hot-dog stands.

## POPULAR READING

"My son writes a good deal. His things are read with great interest by many people."

"Does he write humorous articles?"

"No—menu cards."—Pearson's.

## SPOILED IT

"Yes, sub, dat ol' clock kep' good enough time 'til Mose done bought dat radio."

"What happened?"

"Well, now, every time dey announces de time he always has to set the clock forward a couple of hours."

That artist who says there is no attraction in a straight line surely didn't include dotted ones.

So live that the records of brokers and grape juice merchants can be taken into court without giving you anything to explain.

## SNIPING ON SUSPICION

Louis Lipsky, president of the Zionist organization in America, publishes serious charges through the Hearst United States press against Great Britain. He declares that confidence of Jews in Britain has been shaken by the riots in Palestine. He cites "raw events," in which he says the Palestine administration was "either powerless or unwilling" to interfere, and says it will take long and earnest effort by the British Government to recover the respect of Jews.

He declares the riots were the logical consequence of British policy in Palestine, which he describes as a "ten years' course of instructions to Arabs." He charges that preferences were given to Arabs and denied to Jews, immigration restricted, and that the administration was largely composed of men entirely out of sympathy with Jewish aims.

Then, in the same article, he says that 100,000 Jews have been settled there in ten years and that an idealistic movement has become a productive one.

Contrast this long distance sniping to Britain's procedure. She restored order, named a commission of enquiry to fix the blame, made no charges and denied none. With a stern military policy she bracketed—equally important—a moderate civil policy.

Her commission will probe charges of both sides in the only place where they can be fairly examined—right in Palestine. If penalty is deserved, it will be imposed.

The world will be entitled to judge when it hears the findings of that enquiry. In the meantime, until they are proven or refuted, the

WHITE HORSE  
REAL OLD SCOTCH  
WHISKY

best gauge for Near East charges published in the West is the distance at which they are levelled.

It is easy and popular to broadcast charges against a benefactor. It is another thing to substantiate them.

## REJUVENATING BRAINS

A few years ago, Dr. Eugene Steinach of Vienna managed, with transplanted glands, to rejuvenate some patients physically — and temporarily. Now he says that with "contronervin," an extract from the

brains of frogs, he can rejuvenate men mentally — and temporarily.

The important word is not "rejuvenate," but "temporarily."

"Men found out long before Dr. Steinach was born that they could invigorate themselves both physically and mentally by taking alcohol and other stimulants."

But most of them found out later that the after results caused a net loss. And so today wise men don't overindulge in alcohol to improve themselves physically and mentally.

The best and only way to be physically and mentally vigorous is through proper eating and exercise.

And mental exercise and mental diet are probably as important as physical diet and physical exercise.

## THE CHURCH DRAWS THE COLOR LINE

Acting apparently under pressure from his congregation, a New York pastor has announced that henceforth Negroes will not be allowed to worship in his church.

It must distress the good pastor to read in his Bible that Ham was admitted to Noah's ark along with Shem and Japheth. It was the sons of Ham, according to tradition, who peopled Africa after the deluge.

If only Providence could have foreseen the painful dilemma of the fashionable New York congregation, doubtless Ham, in deference to the principle of noblesse oblige, would have been forbidden entry into the ark, thereby saving much embarrassment for certain of the Lord's chosen in modern New York.

## PROOF OF A CANADIAN

An Alberta magistrate, applying for old age pension, must prove he is a naturalized Canadian. He was born in Ontario 80 years ago. His family for three generations before him were born in Canada. He has spent his life in Canada. But in the official eyes of Ottawa, he is not a Canadian, not even a naturalized one.

And the awe-inspiring fact is that he cannot prove he is a Canadian. No one can. There is no such thing, according to official interpretation.

Happily, however, we can all eat Canadian food, wear Canadian clothes, live in Canadian houses and spend Canadian money. The magistrate, while waiting for pension, may even send a few offenders to Canadian jails.

It may be said, without fear of contradiction, that Canadians, generally, do not eat as many biscuits as they should, particularly health biscuits, such as Arrowroot and Paulin's Digestive Biscuits.

Every household, for instance, should never be without a goodly supply of Arrowroot Biscuits, especially those homes in which there are young children. Arrowroot Biscuits, of course, are so called because they are made from Arrowroot Flour, the best of which comes from St. Vincent, in the West Indies. Why, it may be asked, should his Arrowroot Flour be brought all that way when we have the finest wheat in the world growing right here in Western Canada? The answer is that, long ago, Arrowroot was found to contain a specially nutritious starch which formed a most easily digested food and it was soon discovered that this starch was particularly suitable and beneficial to infants and convalescents. That is why you should always have Paulin's Arrowroot Biscuits in your pantry shelves, and see that they are included in your family's daily diet.

## THE ENGLISH LANGUAGE

"Mother," asked little Jack, "is it correct to say that you 'water a horse' when he is thirsty?"  
"Yes, dear," replied his mother.  
"Well, then," said Jack, picking up a saucer, "I'm going to milk the cat."—Vancouver Province.

Still, the manufacturer of sweets doesn't find it necessary to mention the absence of a cough in a carload.

The chief objection to being a magazine editor is that there aren't enough ex-great ones to go round.

## TENNIS NOTES

On Saturday last the Claresholm Tennis Club seniors played at Macleod, the return tournament. The day was cold and windy and not a pleasant day for playing. However the spirit of the players was all that could be desired. After the playing the visiting members of the Club were entertained at the C. G. I. T. tea in the Town Hall. The interchange of playing between the two towns this summer has been much enjoyed and friendly understandings reached that bid well for enjoyable future exchanges of play. In closing the season of intertown play the Macleod Tennis Club expresses with real enthusiasm its pleasure over the playing with the Claresholm folk, and sincere appreciation for the entertainment extended. The result of Saturday's play is as follows, the Macleod players being named first in each case:

## Mixed Doubles

M. Pinder and F. Neville 5, Mrs. Amundsen and Lauree 1.  
E. Pinder and J. L. Fawcett 5, F. Foster and Amundsen 4.  
A. Tabor and N. Kirk 5, Mrs. King and O. Kirk 2.  
Mrs. Goe and J. L. Fawcett 4, Mrs. Munro and Lauree 5.  
V. Kirk and F. Neville 5, Mrs. Amundsen and O. Kirk 0.  
M. Pinder and J. Miller 2, Mrs. McPhee and Amundsen 5.  
A. Tabor and M. Maier 1, Lindsay and Donaldson 5.  
Mrs. Charlton and J. L. Fawcett 5, Mrs. Dickman and Dickman 4.  
Mrs. Charlton and G. R. Davis 3, Mrs. King and Buchanan 2.  
Total games won—Macleod 6, and Claresholm 3.

## Men's Doubles

J. Miller and J. Wood 4, Donaldson and Buchanan 5.  
F. Neville and N. Kirk 5, Dickman and J. Stewart 2.  
J. Wood and F. Neville 5, Lauree and Amundsen 2.  
F. Neville and N. Kirk 4, J. Stewart and O. Kirk 6.  
Total games won—Macleod 2, and Claresholm 2.

## Ladies' Doubles

A. Tabor and V. Kirk 5, Mrs. Thorne and Mrs. McPhee 2.  
M. Pinder and E. Pinder 2, E. Lindsay and A. Reinecke 5.  
Mrs. Dowsett and Mrs. Cahrlton 5.

Empress Theater

"EXCESS BAGGAGE" STAGE HIT, BECOMES MARVELOUS PICTURE—VAUDEVILLE DRAMA STARS WILLIAM HAINES; WAS DIRECTED BY JAMES CRUZE, WHO MADE "THE COVERED WAGON"—FRIDAY AND SATURDAY

Tinsel and glitter under the footlights, that hides drab existences, heartbreaking work, bitter disappointment and the one great ideal to which every member of the strange profession looks as the Mohammedan looks toward Mecca—this is the life of the small-time vaudeville performer, who, in a world apart, so far as the unknowing public is concerned, works out his strange destiny or fails in the attempt.

A graphic picture of the life every minor vaudeville player knows so well is contained in "Excess Baggage," John McGowan's famous play of vaudeville life in which William Haines comes Friday and Saturday to the Empress Theatre, directed by James Cruze, director of "The Covered Wagon." It is a story of small-time vaudeville with its brief joys, its bitter disappointments, and its odd customs; its comedy is tempered with heart throbs in an intensely human document.

GREAT ACTOR-AUTHOR IN DRAMA SENSATION—TRIPLE TALENTS OF WILLARD MACK MAKE "VOICE OF THE CITY" A GEN IN VIVID WORD PICTURE OF GANGLAND LIFE

"The Voice of the City," Willard Mack's picture, which opens at the Empress Theatre Thursday, creates the illusion of sitting in on a New York opening night of one of Mack's stage successes.

The triple-talented Mr. Mack not only wrote "The Voice of the City," but he also directed it and plays the principal character role. His work in that role, an implacable detective engaged in a desperate man hunt, is a gem of characterization.

Taken as a whole, this production is a splendid type of the highly human sort of melodrama which Mack has been writing with such consistent success for so many years.

World's Greatest Travel System

ESSEX  
the Challenger

GREATEST IN PERFORMANCE

**SPEED**—faster than any car ever built in its price class—Not just a fine drawn shade of advantage but a smashing big superiority that easily distances anything in this field. Its supremacy is not based on theoretical horsepower and specially adapted test devices. Essex speed is a real and usable quality—established on the road—established in records at better than 70 miles an hour, all over the country—established by stop-watch timing over measured distances—established by owners who know and constantly demonstrate that nothing can touch it at the price.

**GETAWAY**—here again the proofs are actual, from 5 to 25 miles in 7 seconds—from 10 to 70 in 19.2 seconds. But more important is the value of Essex getaway in daily service. Its ability is so well known that everyone expects it to be first away at the signal "Go."

**SMOOTHNESS**—exclusive to the patented Super-Six principle, which no other maker can copy.

**ECONOMY**—never approached with like performance. You may expect 18 miles to the gallon and upward—many get more—in your Essex the Challenger. Important taxicab companies have chosen Essex the Challenger as exclusive equipment because its total of all operating expenses was the lowest in the whole motor world. To every buyer there is assured fuel and oil economy, durability, tire wear and low maintenance expense.

**RELIABILITY**—official tests, as well as the experience of 200,000 owners, with the lowest actual records of service cost, establish Essex the Challenger as the "Reliability Car of the Year." Two Essex entries with perfect scores, won the Grand Prize of the famous "Tour de France" reliability classic, against a large field of costlier American and European cars. No other car of whatever price level equalled the perfect record scored by both Essex entries.

EASY TO BUY

Only a few dollars more per month than the lowest priced cars on the market, to own and enjoy this fine and beautiful Super-Six. For instance in this city your first payment may be as low as \$382 and your monthly payment \$69.33.

EASY TO OWN

Your present car will be accepted as cash, at liberal appraisal, and will probably cover the entire first payment. The H. M. C. Purchase Plan offers lowest available terms on balance.

## For All Your BAKING

*The* 1930  
**McLAUGHLIN-BUICK**

**New Road shock Eliminator .. and New Steering Gear**

make McLaughlin-Buick the easiest car in the world to drive!

Imagine being able to travel the roughest road at any speed with the greatest ease and comfort! Such are the fine results of two matchless new quality features in the 1930 McLaughlin-Buick—a wonderful new frictionless steering gear, and the new McLaughlin-Buick steering shock eliminator! The steering shock eliminator absorbs jolts and jars and prevents their transmission to the driver's hands.

The new McLaughlin-Buick steering gear, of the effective worm-and-roller type, assures instant, effortless response to the driver's every wish. Drive this new McLaughlin-Buick. Test these twin features of comfort which make the new McLaughlin-Buick the easiest steering automobile in the world.

### COMMENCEMENT EXERCISES AT MACLEOD SCHOOL MARKED BY INCREASED ATTENDANCE

A marked increase in the attendance of pupils and parents was the feature of the commencement exercises at the Macleod Public and High School on Friday afternoon, when they met for the big annual event in the life of the school year. There is a large increase in the enrollment of pupils this year, this fact was noticeable from the difficulty experienced by the teachers to find seating accommodation for them all in the large assembly hall and that very few of the parents found seats in the hall. They had to be content with seats in the corridors, which was rather unfortunate, there being a very much larger number present than in any previous year.

Dr. O. F. Faneet, the chairman of the Board of Trustees, presided, and after opening the proceedings by singing "O Canada" the chairman gave an interesting address to the scholars and parents. In opening he said: "I am glad to see so many mothers here this afternoon, it shows your interest in the success of our school. I wish to say a few words to you mothers on The Relationship of the Home to the School. When the child enters the school, they enter an altogether different environment from that of the home. Now the first lesson the pupil learns is discipline. They are taught to obey orders promptly and to be fair to their fellow pupils. There the first principles in self discipline are inculcated, so you see that outside of the curriculum what a great aid the school is in building character in the pupils. Now may I make a suggestion: when your child comes home with some tale and you think your child is not getting a fair deal, suppose, instead of running down the teacher or telling your neighbour how your child is abused, you visit the school and see how hard the teacher is working with 30 or 40 pupils and after school is over have a chat with the teacher and get acquainted. In fact we would like to have the parents drop in any time and quickly spend a half hour in the school room, you will be given a seat and the teacher will go on with her regular work. If you do this I think you will go away with the idea that our teachers are a hardworking, conscientious group of people and your child is in good hands.

"To the pupils, especially the seniors and high school pupils, I want to say a word or two. You have now reached an age when you should begin to think seriously and to recognize your responsibility to yourselves, your parents and your school. You should aid in discipline instead of having to be disciplined. We have a fairly stiff course of studies in our high school. If you wish to succeed in your school work it is necessary that you give it the time and attention that any working or business man gives to his work. In the class room good attention and application to your work, plenty of play and exercise outside of the class room. Just a word in regard to conduct. The boys or girls who think it smart to play pranks in the school room are hurting themselves most of all, but they prevent other students from paying attention and in that way injure them also. Just ask yourselves who was responsible for your falling down in one or more subjects in the recent departmental examinations; was it lack of study, lack of attention or too much amusement outside of school. Very often the teacher is blamed for failures, when it is entirely the fault of the student. To make a well balanced pupil you need plenty of exercise and the board, through the kindness of the Women's Institute, are providing footballs and basketballs, and Mr. Miller, the principal, and the other teachers will help you in every way possible with the sports outside of school." The doctor asked the parents to visit all the classrooms and see the environment in which their children spend their hours every day in school.

Mayor J. W. McDonald, K. C., a member of the board, in his usual delightful way with children, gave an interesting address in which he stated first how delighted he was to be present with them again, how the time rolls round and here you are starting another year of work. He spoke of discouragements in their lessons, but said: "Don't be discouraged, make up your minds that you will get through. Failure is a misfortune, but the supreme lesson is never be discouraged." Mr. McDonald said that two years ago, he gave them a motto, and he wondered how many of them remembered it. Several hands went up and one girl repeated it, which pleased the Mayor very much. He said he was going to give them another, and he hoped they would all remember it, "Above all, to think one self be true, and it must follow as night by day, you cannot be false to anyone."

Special mention must be made of the singing by the combined classes, especially the hymn "Unto the Hills Do I Lift Up," four long verses sung in splendid time and perfect tune. To Mrs. (Rev.) Knight is the credit as she has been training them for the past few weeks, and also to Miss Irene Young, one of the senior high school pupils, for the accomplished manner in which she played the piano for the choruses and marches.

The most exciting time for the pupils was the presentation of the prizes and afterwards the ice cream, which this year was served on the lawn in front of the school. The following is the list of prizes, which is provided by a committee of ladies known as the Commencement Committee. Prizes were also donated by several of the teachers for special work during the year. Grade I.—1st, Glenella Russell; 2nd, Marion Hodnet; 3rd, Marjorie Trowhill. Grade II.—1st, Mabel Jordan; 2nd, Billy Kostuk; 3rd, Ralph Platt. Grade III.—1st, George Cooper; 2nd, Olive Connelly. Grade IV.—1st, Molly Crowe; 2nd, Betty Knight; 3rd, Tommy Ripley. Grade V.—1st, Doris Russell; 2nd, Arthur Stevenson; 3rd, Beatrice Burrows. Grade VI.—1st, Irene Kennedy; 2nd, Wilton Jones; 3rd, Annie

Kostuk. Grade VI.—1st, Edna Russell; 2nd, Isabel Moreash; 3rd, Ruby Taylor. Grade VII.—1st, Violet Wilson; 2nd, Eileen Freck; 3rd, Wilma Freck. Grade VIII.—1st, Dorothy Pinder; 2nd, May Hoodless; 3rd, Dorothy Hilliard. Grade IX.—1st, Margaret Hillier; 2nd, Harry Stevinson. Grade X.—1st, Donald Sutherland; 2nd, Jean Day. Grade XI.—David Grier. Grade XII.—Jack Faneet. Special prizes: Grade II.—By Mrs. Grady to Lois Dunbar, for most improvement in writing. Grade III.—By Miss Griffin to Beatrice Bradshaw for most improvement in composition. Grade V.—By Miss Griffin to Wilton Jones for highest marks in geography. Grade IV.—By Miss Martin to Doris Russell for spelling. Grade VI.—By Miss Tabor to Ruby Taylor for accuracy. Grade VII.—By Miss Kirk to Addison Clement for art. Grade IX.—By Miss Stewart to Leona Ferguson for highest in French. Grade X.—By Miss Stewart to Jean Day for highest in French. Grade XI.—By Miss Telford to David Grier for highest in Literature. Grade XII.—By Miss Telford to Harold Knight for highest in Latin.

### MASSED ANGLICAN SERVICE AT ARENA, CALGARY, ON SUN. SEPT. 22, 1929

As previously announced the above service was held in the Arena at Victoria Park, Calgary, on Sunday evening last, when some 6,000 people in the Arena listened to a most stirring sermon, preached by the Right Rev. Frank Theodore Woods, Lord Bishop of Winchester, England. His theme was "Bridges," based upon the word of St. Paul in his Epistle to the Ephesians, chapter 2 and verse 14.

It was at once captivating, interesting and inspiring—a deliverance worthy of the occasion. Bishop Sherman of Calgary led the devotions, and at the close The Most Reverend S. P. Matheson, D.D., LL.D., D.C.L., Primate of all Canada, pronounced the Benediction. A massed choir of 250 voices and an orchestra of fifty instruments, under the direction of Mr. George E. Bowen, L.R.A.M., A.R.C.M., led the great congregation in praise and devotion. "Hearken Unto Me," the Anthem, was most beautifully rendered.

The service was broadcast from Calgary and all the Anglican Churches in the Diocese as well as hundreds of private homes listened in on the radio and without exception everyone echoed the words of the Calgary Herald in saying: "It was a wonderful service."

We at Christ Church, Macleod, are indebted to Mr. R. A. Clement of the Rexall Drug Store in that he installed one of his best and most powerful radios in the church, and to Mr. M. St. George who, throughout the service stood by and manipulated the instrument. The Rector, Warden and congregation extend to these two gentlemen their sincere thanks for the services they gratuitously rendered.

The church was filled to its capacity and everyone followed the service with rapt attention as the words of the devotional service, the sermon and the music came through with such mellow clearness.

Rev. F. Randall Powell.

### WHERE'S THAT?

The traveler, anxious to make conversation, turned to the other occupant of the compartment, and remarked: "Not much news nowadays. How are things in China? Do you know?"

"No, I don't," said the other. "I travel in tin."—The Traveler.

### AN UNUSUAL MAN

Mrs. Knotts: "I can't understand why you aren't like Mrs. Dobb's husband. He's the most perfect man I know of."

Mr. Knotts: "Why all the admiration for our neighbor?"

Mrs. Knotts: "He never passes a mail box that he doesn't feel in his pockets."—Boston Globe.

### THE EXCEPTION

"How is your bride getting along with her experiments in cooking?"

"Well, she hasn't burned any asbestos yet."—Chicago Daily News.

### ECONOMY

"Why did you have only one of the twins photographed?"

"They looked so much alike, it was no use to spend the money getting pictures of both."—Pathfinder.

Al Capone says the court was prejudiced against him. This is the first compliment a Philadelphia court has received in a long time.

The new "super" tires are said to last as long as the car, which may just mean that a car on rigid tires doesn't last long.

Education is a wonderful thing. It teaches you that the Germans in France were invaders, while the French in Morocco are suppressing the rebels.

### Gas Forces Woman to Sleep in Chair

"Nights I sat up in a chair, I had stomach gas so bad. I took Adlerika and nothing I eat hurts me now. I sleep fine."—Mrs. Glenn Butler.

Even the FIRST spoonful of Adlerika relieves gas on the stomach and removes astonishing amounts of old waste matter from the system. Makes you enjoy your meals and sleep better. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Rexall Drug Store.

\$3.95 Each

# As the Drills Go Down The Price Goes Up!

The Time to Buy

## BAILOR MINES LTD. STOCK IS NOW!

The Present Price is 25 Cents Per Share but within the next few days it will be advanced to 50c Per Share

## The Sinking of Four Diamond Drill Holes Has Just Been Completed

The Driller's Report Which Shows The Property To Be One Of The Rich Mineral Bodies In This World-Famous Mineral Field, States That There Are 200,000 Tons Of Sulphides And Chalcopyrites Consisting Of Rich Bodies Of Copper, Gold, Zinc, Nickel And Traces Of Platinum. Further Drilling Is Now Planned, Which Will Undoubtedly Reveal Even Richer Discoveries.

**BAILOR MINES ARE SITUATED RIGHT IN THE HEART OF THE RICH FLIN FLON-SHERITT GORDON FIELD**

The property lies directly in between these two great mines, being seven miles north-east of Flin-Flon, where there is \$240,000,000 worth of proven ore, and 16 miles south-west of the Sherritt-Gordon mines, where there is equally as much proven ore. Power can be secured for mining purposes from the Hudson Bay Mining and Smelting Co., at Flin Flon and smelting can also be done at this point. The Flin Flon railway is within 5½ miles of the Bailor property.

**ROBERT JOWSEY HOLDS 200,000 SHARES OF BAILOR STOCK**

The fact that Robert Jowsey, multi-millionaire miner, who acquired his wealth from the Sherritt-Gordon mines holds 200,000 shares of Bailor Mines Ltd. stock is sufficient proof of the value of the Bailor property.

**MINERAL VEIN GREATER THAN FLIN FLON VEIN**

The Flin Flon vein is 2,593 feet in length while the vein on the Bailor property is over 7,000 feet, which is longer by 4,407 feet.

Assays run from \$6.25 to \$11.25 on what has been drilled up to date.

**BAILOR PROPERTY INSPECTED BY TWENTY-THREE WELL-KNOWN MINING ENGINEERS**

During the past twelve months twenty-three well-known mining engineers including such men as Edwin F. Elliot of International Nickel Mines, Mr. Williams of the Aurora and Belt mines, who is prominent in both European and Canadian mining circles; Mr. Brown of the Sherritt-Gordon Mines and Robert Jowsey of Sherritt-Gordon and Lindsay mines have inspected the Bailor Mines Ltd., property and all are of the same opinion that it is only second to Flin Flon and Sherritt-Gordon.

Mr. and Mrs. C. G. Hault motored  
to Lethbridge Tuesday.

W. H. Shield, M. L. A. and Mrs.  
Shield motored to Lethbridge on  
Saturday.

Mrs. F. Lane left on Tuesday for  
Calgary, where she will visit for a  
few days.

On the farm of McNeil & Sons at  
Stand Off a thirty acre field of  
Spring wheat averaged 47 bushels  
per acre.

Mr. and Mrs. R. I. Bell and little  
son and Miss Marion Bell of Wey-  
burn, Sask., are spending a week  
with Mrs. Bell's brother, R. A.  
Clement, en route to Vancouver.

Mr. and Mrs. Wallace Braden and  
little son have returned from Wini-  
peg, where they had been called on  
account of the sickness of Mr.  
Braden's mother.

Miss Wilma Swinerton of Edmon-  
ton, daughter of Mr. and Mrs. J.  
Swinerton is in Macleod for a week  
holiday with her parents, arriving  
last Friday.

Constable and Mrs. J. B. Carter  
and little daughter, formerly of  
Macleod, were visitors in town on  
Sunday last, Constable Carter now  
being stationed at Cardston with the  
A. P. P.

Dr. and Mrs. R. M. Reid of  
Vegreville were visitors at the home  
of Mr. and Mrs. J. A. Panter for a  
few days last week. Mrs. Panter  
accompanied them to Fernie Mon-  
day morning and Miss Ada Ferguson  
left on Tuesday morning, all entering  
for the first time. John Rothney and  
J. D. Adams leave on Wednesday  
morning for their final year.

On Friday Miss Mae Grier en-  
tertained six of her girl friends at  
supper and afterwards at a Theatre  
party. It was in the nature of a  
farewell party to Miss Ida Ferguson,  
who was presented with a nice gift  
by Miss Grier as a token of her  
friendship.

The Rev. J. F. Knight of the  
United Church, Macleod, visited Ed-  
monton this week. He reported the  
harvest almost finished in the  
northern part of the province and  
some crops threshing only three  
bushels per acre. Mr. Ernest Runk,  
formerly of Macleod, reported that  
their crop this year would not sur-  
pass per acre the seed sown. While  
visiting in Edmonton and Calgary  
Mr. Knight was able to interview  
Mr. Hill of the Edmonton Public  
Library and secured the promise of  
a consignment of books for the Mac-  
leod Public Library. These books  
are not a loan but a gift and will re-  
quire some repairing before again  
put into circulation. Mr. Calhoun of  
the Calgary Public Library also  
promised a consignment of books  
during October. The best roads be-  
tween the border and Athabasca  
Landing is the stretch between Mac-

leod and Clargholm. And the very  
best 15 miles in the stretch is be-  
tween Macleod and Granum.

Hugh Craig a former resident of  
Macleod paid a short visit to some  
of his old friends last week-end.

Nelson Genge of Calgary is visit-  
ing his mother, Mrs. Colin Genge,  
this week.

Mr. and Mrs. A. Clement, who are  
visiting their son R. A. Clement,  
celebrated their golden wedding  
anniversary on Wednesday.

Mrs. M. Murphy and Miss J.  
Deman returned on Monday from  
Vancouver and other Coast points,  
where they have been holidaying  
for the past two weeks.

Mr. and Mrs. R. H. Plasket, ac-  
companied by Dr. and Mrs. Plasket  
of Osoyoos, B. C., were visitors in  
Macleod last week for a few days.  
Mr. and Mrs. Plasket were residents  
in the Porcupine Hills for many  
years where "Bob" had an extensive  
ranch in the Spring Point district.

Frank McLeod, last year's star  
hockey player for Macleod, passed  
through town on Sunday last, en  
route to High River, where he will  
in future reside. We will probably  
here more of Frank in hockey circles  
this winter as he will more than like-  
ly make a place on High River's  
team.

Macleod will be well represented  
at the University of Alberta this  
year. Jack Fanset, Karl Robinson  
and Harold Knight left on Monday  
morning and Miss Ada Ferguson left  
on Tuesday morning, all entering for  
the first time. John Rothney and  
J. D. Adams leave on Wednesday  
morning for their final year.

On Friday last the Ladies' Aid of  
St. Andrew's Church presented Miss  
Ida Ferguson with a handsome check.  
This suitable gift expresses ap-  
preciation for the services she ren-  
dered to the congregation as organ-  
ist during the summer months. Miss  
Ferguson enters the University as a  
second year undergraduate having  
received her Grade XII certificate  
at the Halifax Academy in 1928.

At the close of the Sunday evening  
service at the United Church Mac-  
leod, the congregation gathered to  
say "God Speed" to three young men  
from the congregation, who left on  
Monday morning for the University  
at Edmonton, where they will enter  
as Freshmen, and take up the studies  
which they have chosen for their life  
work. They are Karl Robinson,  
John Fanset, Harold Knight, all  
three were grade XII students in  
the Macleod High School last year.  
They have been brilliant students  
through High School and it is ex-  
pected that they will continue the  
same through the University, and so  
bring credit to themselves and honor

### THE DIET

"Are you living on shorter rations?"  
"Yes, but I get so hungry that I  
have my ordinary meals as well."  
Sondagsnisse-Strix (Stockholm).

Life was more simple before the  
tourists came. The farmer could  
shoot Indians that destroyed his  
crop.

## YOUR OFFICE SUPPLIES

Good Stationery is the first requirement of course. We  
specialize in fine papers and good workmanship.

For your accounting system we can sell you the most  
modern Loose Leaf Systems, Binders, Invoices, Ledger  
Leaves.

## "THE TIMES"

## McCORMICK-DEERING NEWS

"Good equipment makes a good farmer better"

Published by  
C. E. TWEED  
The Farm Equipment Man

House Phone 41 Office Phone 157  
Vol. 1, No. 23 Macleod Thursday, Sept. 26, 1929

Watch for the "News" each week.  
Suggestions and news items in-  
vited.  
Claude Tweed, Editor

Orator: "How did you like my  
speech?"

Auditor: "Well it seemed to  
me you didn't improve your op-  
portunities."

"How's that?"

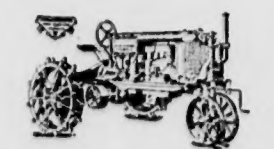

"Well, you had several oppor-  
tunities to sit down."

For one cow or a hundred.  
McCormick-Deering Cream  
Separators are built in all sizes.

Are all the appropriations  
made for the Navy sinking  
funds?

The new McCormick-Deering  
Manure Spreader will easily  
turn so short as to pivot on the  
rear wheels. The seat folds for-  
ward out of the way when load-  
ing.

Your boy will get a big kick  
out of doing two men's work  
with a Farmall. And he can do  
it easily. It's a lot easier to  
keep him on the farm with you  
when you don't ask him to dodge  
swishing tails all day.

"Is the wife boss in your  
family?"  
"I should say not. We have a  
daughter."

Did you ever stop to think  
how much repairing the human  
race needs? Think of the doc-  
tors, dentists, and lawyers—all  
repair men—trying to repair  
something that has gone wrong.

When Mayor Thompson of  
Chicago starts to rant about  
"George" and his "America  
First," most Chicagoans don't  
know whether he is talking  
about King George the Fifth,  
Lloyd George, Henry George, or  
George Washington.
